1. Mobile via smartphone

- app obtainable in the App Store and Google Play Store*
- app available for Samsung Galaxy S4, S4 mini, S5 and S5 mini from android version 4.3 KitKat or 5.0 Lollipop and Apple iPhone 4S, 5, 5S, 6, 6S from IOS 8.1.3 and Nexus 6**
- Keyless Entry

2. PASSIVE TRANSPONDER

- modern passive transponder
- 1 piece included as standard

3. PINCODE VIA KEYPAD

- illuminated keypad
- keypad operation via touch panel
- mechanical ON button

4. FINGERPRINT VIA KEYPAD

- fake finger detection
- access with the own fingerprint
- advanced sensor technology

SECURE

- 6-digit secret code
- up to 50 codes can be programmed (incl. 1 administrator code), or up to 24 fingerprints
- 1 million different codes possible (PINCODE)
- more than 1 billion codes possible (transponder)
- optimum protection against manipulation
- data transmissions AES encoded for safety
- keypad should be installed in an area protected from weather, protection class IP 55

COMPATIBLE

- for all doors with a thickness of up to 130 mm (67.5 / 62.5)
- for interior and exterior doors
- knob diameter 30 mm
- external is supplied adjusted to 30 mm, internal is supplied unassembled
- keypad to be mounted within a 4 m range of the door

SIMPLE

- the electronic secuENTRY cylinder replaces the mechanical euro profile lock
- existing fittings remain unchanged
- no drilling - easy to replace
- low battery consumption due to use of Bluetooth 4.0 LE
- battery life depends on operation mode (with active Bluetooth 2 years and without Bluetooth 3 years)
- including 2 LR6 AA batteries (Keypad) and 1 CR123A battery (cylinder)

APP

1. KeyApp

- cylinder opens via smartphone
- download via AppStore or via Google Play Store
- search term 'secuENTRY KeyApp'
- fast installation and easy commissioning
- automatic updates possible
- free starter kit incl. 30 access operations
- additional chargeable packages available

2. ConfigApp

- usable with the secuENTRY PC software only
- to program keypads and locks
- to read out and show the history
- free download in the AppStore and Google Play Store
- search term 'secuENTRY ConfigApp'
- automatic updates possible

PC COMPATIBLE

- our optional TSE software offers several additional functions such as:
 - user administration
 - administration of access rights
 - history readout, etc.
